Hands on Health

Hey teachers, book your field trip to Hands on Health today!

During every 60 minute field trip, students will participate in an activity at the spectrUM Discovery Bench designed to help meet science standards for Elementary, Middle, and High School students.

- K-2nd grade**
will focus on healthy choices, including nutrition, hand-washing, and active living.
- 3rd-5th grade**
will experience a guided dissection of an eyeball to understand its parts and functions.
- 6th-8th grade**
will explore the body's circulatory system through a guided dissection of a heart.
- 9th-12th grade**
will meet with a medical practitioner, student, or researcher to explore the career possibilities in the medical field, including radiologists, surgical technicians, and infectious disease specialists.

Fee and Group Size:

\$3.50 per child with 15 child minimum or \$52.50 for groups smaller than the minimum. Groups of 30 or more are encouraged to split into smaller groups to enhance the student's experience and understanding.

spectrUM Store:

Students often like to bring money to purchase items. Some of our most popular items are a dollar or less, so if they are interested, they might want to bring some pocket change.

Cancellation Policy:

If you need to cancel, please give us at least 24 hours notice; otherwise, a \$52.50 cancellation fee applies. Free Passes are only valid during public hours. They cannot be used during field trips.

To book your field trip today, call spectrUM at 243-4828
